## General Sessions:

### *Friday, June 19*

#### **9:00 am - 9:30 am: General Session - MTI and Your Future**

MTI President, Jackie Peters from Peters' Heat Treating, and Tom Morrison CEO of MTI Management will provide an update on the various projects and enhancements MTI is working on to increase the value to members. You will learn how each of these programs add more productivity and profits to your company.

#### **9:30 am - Noon: General Session: With Safety.... It Only Takes One**

When it comes to safety, it is easy for a business to become content and not continually innovate and improve safety. As operations become more fast paced, fork lifts running around, gas and electric flying over head, it only takes one accident to put lives at risk and minimize a year's worth of growth. MTI's official safety consultant, Rick Kaletsky will share with you the latest safety requirements you need to know to help prevent unnecessary accidents from happening. Rick will use real life case studies he has been involved with at MTI member plants throughout his presentation to help you relate the information to your day to day operations and safety procedures.
